

Clinical Notes – QRC 1.9

Points to Remember

- Notes are not visible to Immunization Clerk roles.
- Once a note has been created, a yellow triangle will appear in the Client Context Header, similar to a warning.

Panorama Quick Reference Card

- In addition to viewing clinical through **Notes** in the Left-Hand Navigation menu, clinical notes can also be viewed through the Client Header. Click on the yellow Notes icon in the top left-hand corner of the screen.
- Notes can be “Saved as Draft” and completed at a later time by clicking the “**Note Complete**” button.
- To view note corrections, click the radio button beside the note and select **View Note Corrections**.
- **Transcribe Note** is not part of the NS process.
