

## Update Investigation Information – QRC IOM 102-6

### Points to Remember

- Initially, many of the fields are auto-populated with information from when the investigation was created, such as: Disposition is set to “Notification Issued”, Status is set to “Open”, and Client Home Address at Time of Initial Investigation (auto-filled from Client demographics). Update fields as required.
- If AIDS is selected, the indicative disease section will be displayed. Complete the fields in this section.
