

Adherence Create, Set Doses, Override, Update, Delete – QRC IOM 103-8

Panorama Quick Reference Card

Points to Remember

- The Adherence functionality allows a user to track drugs that were actually taken by a client, as compared to those that were prescribed or otherwise authorized.
- This screen is used to monitor TB drugs only.
- A client and investigation must be in context.
- Adherence periods consist of a date range and automatically include all of the client's medications that are active in that range.
- To view the calculated **Period Adherence** value prior to saving, click the **Calculate** button.
- To exclude a drug from the adherence period calculations, uncheck the **Include in Period Adherence** box.
- To view the Period Adherence value prior to saving it, click the **Calculate** button next to it.
- An Interruption can be set from the **Adherence Details** screen.
