

Directly Observed Therapy (DOT) Summary – QRC IOM 103-9

Panorama Quick Reference Card

Points to Remember

- The Directly Observed Therapy (DOT) Summary screen lists current and historical DOT periods for a client.
- A client and investigation must be in context.
- The medication must be indicated as DOT in order to be included on this screen.
- Ensure that a DOT medication is active during the timeframe of the proposed DOT period. The DOT indicator must be set on the Medications Summary screen.
- Date and time can be in the past if historical data is being entered.
- **Outstanding Visits** can be filtered by **Drug** and/or by **Date**. After selecting filter criteria, click the **Display** button. Click **Reset** to clear the filters.
- All visits can be selected/deselected by clicking the appropriate **Row Actions** button.
- When updating, if the **Observe Dose Taken** or **Observe Dose Not Taken** button was clicked, the modified record remains in the **Directly Observed Therapy History** section.
- If the **Restore As Outstanding** button was clicked, the record is moved to the **DOT Outstanding Visits** section.
