

The Investigation quick Entry Screen provides streamlined functionality for the entry of investigation information without having to navigate through the functions in the left hand navigation bar.

**Do not use the Investigation Quick Entry Screen to create investigation. Always start with the “Create Investigation”**

Once the investigation is successfully saved through the “Create Investigation” Screen, you can then proceed to the Investigation Quick Entry in the left-hand navigation bar.

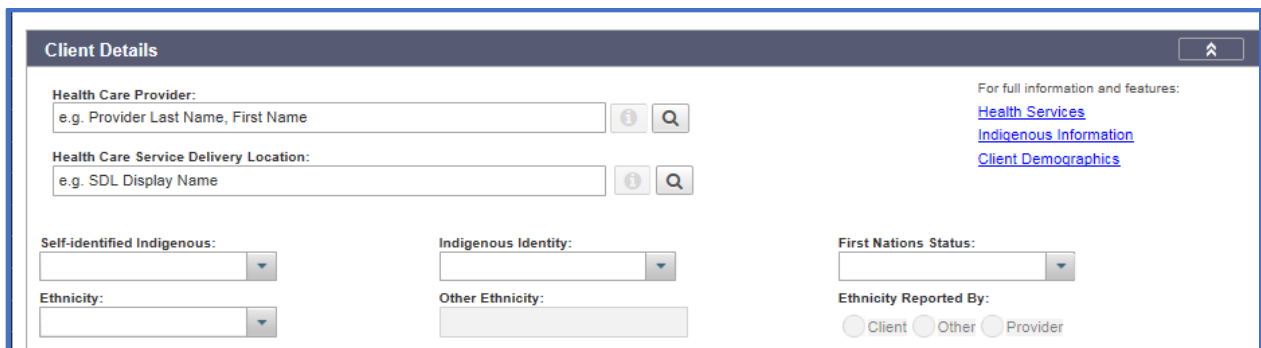

---

### Client Details

---

Allows the user to add these fields if there are no previous values in Panorama for the client. If previous values have been entered, the user can update these fields through the hyperlinks provided in this section.

Disease Details - **DO NOT USE**

**Do not complete this section through the Investigation Quick Entry Screen.** The investigation must be initially created through the “Create Investigation” screen. This information will then display only on the Investigation Quick Entry screen.

**Signs and Symptoms**

Allows the user to provide a response to all the pre-set signs and symptoms.

Note:

- Additional signs and systems will need to be added through the full signs and symptoms functionality.
- Once you save on this screen – all other updates to signs and symptoms will need to be updated through the full functionality.

| <input type="checkbox"/> | Sign or Symptom ^                | Response             | Onset Symptom            | Onset Date | Duration (days)      |
|--------------------------|----------------------------------|----------------------|--------------------------|------------|----------------------|
| <input type="checkbox"/> | Abdominal pain/discomfort/cramps | <input type="text"/> | <input type="checkbox"/> | yyyy/mm/dd | <input type="text"/> |
| <input type="checkbox"/> | Anorexia                         | <input type="text"/> | <input type="checkbox"/> | yyyy/mm/dd | <input type="text"/> |
| <input type="checkbox"/> | Asymptomatic                     | <input type="text"/> | <input type="checkbox"/> | yyyy/mm/dd | <input type="text"/> |
| <input type="checkbox"/> | Bloody stool                     | <input type="text"/> | <input type="checkbox"/> | yyyy/mm/dd | <input type="text"/> |
| <input type="checkbox"/> | Chills                           | <input type="text"/> | <input type="checkbox"/> | yyyy/mm/dd | <input type="text"/> |

### Risk Factors

Allows the user to set responses for preset risk factors that are not already pertinent to another investigation.

- Do not set a risk factor pertinent to inv from this screen. If a risk factors on this screen has a response, you will need to add for this investigation from the Risk Factor function in through the left-hand navigation bar.
- Once risk factors are set from this screen, all other updates to risk factors will need to be completed through the full functionality.

The screenshot shows the 'Risk Factors' interface. At the top right is a 'Reset Risk Factors' button. Below it is a 'Set Response' button. The main area is a table with the following columns: Risk Factor, Response, Additional Information, Frequency, Effective From Date, Effective To Date, and Pert. to Inv. There are four rows of risk factors, each with a checkbox in the first column and a dropdown menu in the Response column.

| Risk Factor  | Response             | Additional Information | Frequency            | Effective From Date | Effective To Date | Pert. to Inv.            |
|--|----------------------|------------------------|----------------------|---------------------|-------------------|--------------------------|
| <input type="checkbox"/> Behaviour - Smoking / vaping / use of smoking paraphernalia           | <input type="text"/> | <input type="text"/>   | <input type="text"/> | yyyy/mm/dd          | yyyy/mm/dd        | <input type="checkbox"/> |
| <input type="checkbox"/> Exposure - Animal - contact with pets, farm, petting zoo, or wildlife | <input type="text"/> | <input type="text"/>   | <input type="text"/> | yyyy/mm/dd          | yyyy/mm/dd        | <input type="checkbox"/> |
| <input type="checkbox"/> Exposure - Contact - caring for someone in diapers/incontinent        | <input type="text"/> | <input type="text"/>   | <input type="text"/> | yyyy/mm/dd          | yyyy/mm/dd        | <input type="checkbox"/> |
| <input type="checkbox"/> Exposure - Contact - contact with a                                   | <input type="text"/> | <input type="text"/>   | <input type="text"/> | yyyy/mm/dd          | yyyy/mm/dd        | <input type="checkbox"/> |

### Exposure Summary

Displays the exposure summary for the investigation. Allows user to update exposure events. If there are no exposure events, the user can navigate to the exposure summary functionality through the hyperlink.

The screenshot shows the 'Exposure Summary' interface. At the top right is a checkmark and an upward arrow. Below it is a link: 'For full information and features: [Exposure Summary](#)'. There are two main sections: 'Transmission Events' and 'Acquisition Events'. Each section has an 'Update' button and a checkmark with an upward arrow.

**Transmission Events**

| TE ID | Exposure Name       | Transmission Start | Transmission End | Setting Type        | Setting | No. of Contacts |
|-------|---------------------|--------------------|------------------|---------------------|---------|-----------------|
| 187   | quick entry testing | 2019 Jun 03        | 2019 Jun 07      | Household residence |         | 0               |

**Acquisition Events**

| AE ID | TE ID | Source Name | Exposure Name  | Acquisition Start | Acquisition End | Setting Type        | Setting  | Likely Source |
|-------|-------|-------------|----------------|-------------------|-----------------|---------------------|----------|---------------|
| 256   |       |             | Direct Contact | 2019 May 06       | 2019 May 10     | Health care setting | Hospital |               |

User Defined Forms

---

**IMPORTANT:**

Complete other sections that you have started and save before completing the Food Questionnaire. If you do not save, you will lose the information you have entered.

For the diseases that use the Food User Defined Form, it will be available here. Click on the hyperlink to update or view.

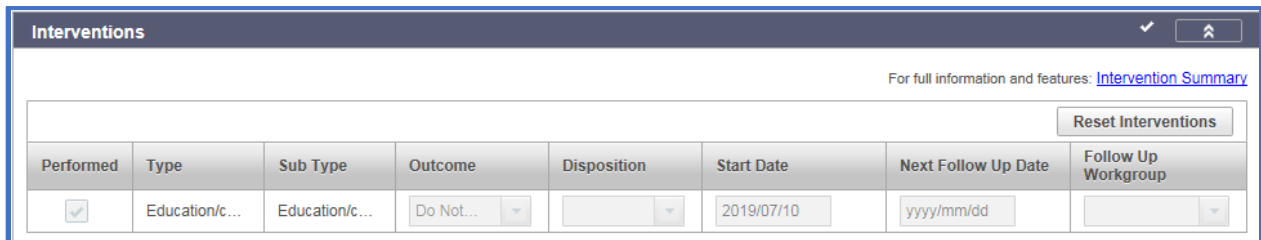

---

Interventions

---

Displays interventions that have been recorded for the investigation.

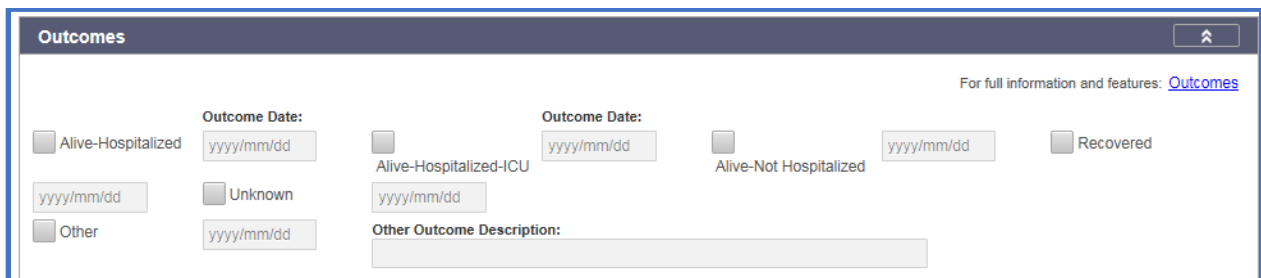

---

Outcomes

---

Allows the user to record outcomes against the investigation. Multiple outcomes can be recorded at the same time.

---

Clinical Notes

---

Allows the user to record an initial clinical note against the investigation.

The screenshot shows a web-based form titled "Clinical Notes". At the top right of the form is a small upward-pointing arrow icon. Below the title is a "Subject:" label followed by a text input field. To the right of the input field, there is a link that says "For full information and features: [Clinical Notes](#)". Below the subject field is a "Note:" label followed by a rich text editor. The rich text editor has a toolbar with various icons for text formatting (bold, italic, underline, text color, background color), alignment (left, center, right, justified), list creation (bulleted, numbered), indentation, link, unlink, undo, redo, print, and save. The main text area of the rich text editor is currently empty.
